MAY MEETING

At our May meeting, Mark Young from ASCCA will talk to us about the delivery of multimedia content by streaming services over the internet,

APRIL MEETING

At our April meeting, Jonathon James from NBN Co reported on progress with the NBN rollout.

NBN Co was established by the Australian Government in 2009 to design, build and operate a wholesale, open access phone and internet network and the company's prime focus is gradually shifting from the build to the operation phase.

When NBN Co advises, by letter, that infrastructure is ready for service, residents have eighteen months to arrange with their preferred service provider to transfer fixed-line phone and internet services to the NBN.

People who have a medical alarm service over their existing phone line are advised to register with NBN Co (Phone: 1800 227 300) to reduce the chance of outage or failure of that service at changeover.

Also, be alert for scam NBN phone calls requesting money - NBN will never call you requesting payments.

The <https://www.nbnco.com.au> website is a good source of information on the NBN and when it is scheduled to be available at your place of residence.

All tutors are invited to attend this month's Committee Meeting at 10:00 am on Wednesday 29 May 2019

READING THE FINE PRINT

If, from time to time, you have trouble reading ridiculously small print, here are some suggestions that may help:

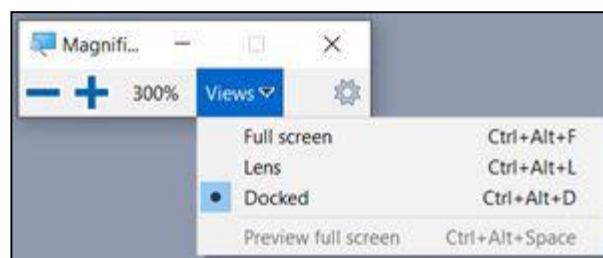

- Take a digital photo of the text (eg: a serial number) and then use the camera's zoom function to enlarge the image on the screen.
- Apple and Android smartphones incorporate a magnifier mode which projects an enlarged image from the camera onto the screen.
- The Apple App and Google Play stores have a range of third party magnifier apps to turn your phone or tablet into a handy magnifier.

- If a laptop or computer screen is hard to read, the Windows 10 Magnifier app presents some useful options for enlarging the screen contents.

Found under Start > Settings > Ease of Access > Magnifier, various options, including zoom level and magnifier view, can be selected.

Alternatively, press the Windows key and type 'Magnifier', then click the Magnifier App option at the top of the list.

THE CLUB

2

The Hurstville Seniors Computer Club was formed in April 1998 to teach Seniors how to use computers. Clubrooms are in premises provided by the Georges River Council in the Hurstville Seniors Centre. Tuition is held during week-days in an informal atmosphere - cost being a minimum. We are an entirely voluntary organisation, the aim being to help fellow Seniors.
